

SSE INC.
PRESENTS:

From Caterpillar to Butterfly™

Tawana N. Gibbs, Executive Director/Co-Founder | From Caterpillar to Butterfly™ an
Entrepreneurship Program

What is SSE, Inc.?

SSE, Inc. is an exclusive charitable, educational, community service based organization. The purpose of the organization is to promote public awareness, provide information and education to our communities and underprivileged inner city kids/teens/college students, and to support the value of sisterhood and professionalism while representing a character of integrity.

SSE, Inc & Your Organization Blended

Educating our youth requires a joint effort and SSE, Inc. would like to participate with your organization to achieve this effort. Implementing SSE, Inc. as an workshop or mentoring program for the junior and/or high school young ladies, will not only be rewarding, but it will provide them with the socially-conscious knowledge needed, to properly evolve into becoming mature young women. This nine month program focuses on awareness, business and formal etiquette, and entrepreneurship.

From Caterpillar to Butterfly™

There is a process that occurs before a butterfly has wings. The transformation of this insect is amazing and this cycle that occurs in Mother Nature is never ending. We understand that it takes time to develop into something remarkable and it doesn't happen over night. "From Caterpillar to Butterfly™" is the program we would like to employ with your organization via SSE Inc. Knowledge increases responsibility. The more youth we educate, the more the responsibility increases for them to teach the next generation. Accessing this program as a workshop will enhance social and behavioral skills. If you can not adopt the entire program, we offer the classes as individual workshops.

Awareness & Entrepreneurship

Who is going to take our place when we retire? The youth! Working in conjunction with your organization will not only assist the youth apart of the organization, but it will bring a major emphasis and provide education on epidemics that plague the Black Community such as:

-HIV/AIDS

-Heart Disease

-Breast Cancer

Prevention methods will be the central discussion of these topics.

Becoming aware of the vital illnesses that plague our communities will be **one-third** of what the program teaches. The young ladies will also be taught entrepreneurial and business skills which include:

- Business and Social Etiquette Classes
- RESPECT – Spell it out and know what it means
- Public Speaking – (i.e. "Your Two Minute Speech" & "UM is not a Word")
- Banking 101 – (i.e. "Save your Allowance!") and additional classes/workshops
- You are an Entrepreneur – Sell/Give your talents and gifts
- Understanding Insurance and why we it is so essential!

**Syllabus with details of classes and activities available, along with workbook, induction pins, and t-shirts provided if adopted*

From Caterpillar to Butterfly™ provides business economics, entrepreneurial skills and awareness. It is in direct correlation with your effort to empowering them. They must be equipped and taught the basics at an early age. The program will teach the young ladies, on their level, the importance of the issues going on around them. The program exposes and provides genuine experiences. Once the young ladies have completed the workshops, they will be rewarded with an induction ceremony. The young women will be able to utilize their experiences from this program in high school, college and their communities. The concluding result of this program provides these young adults with a smooth transition into being well-rounded, professional Women of integrity.
